The Design Brief forms a critical part of the design process.

The Design Brief helps us to understand your new home; it's aesthetic, its function, its feel and its purpose. It helps us understand what's important to you and how you and your family live.

Answer the questions on the following pages as fully as you can. Do it together, or do it individually and then compare your thoughts. Some questions may not be relevant for you; that's fine.

Use whatever technique works for you. Write, record, video, sketch, draw bubble diagrams; it doesn't matter.

20 things I want in my new home are...

From these, 5 things I MUST have in my new home are...

20 things I DON'T want in my new home are...

From these, my top 5 things I DON'T want in my new home are...

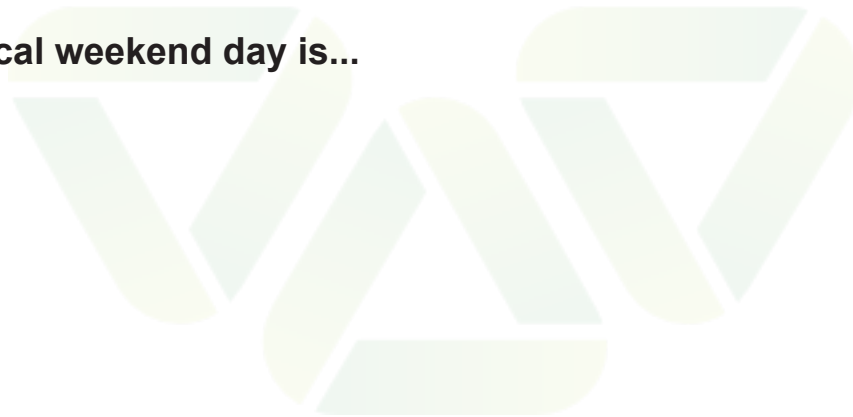

My typical weekday is...
